 - i. Millsaps College, its agents, and employees (collectively, "Millsaps" or "College") aims to deliver its mission while protecting the health and safety of our students and minimizing the potential spread of disease within our community. As a resident of Millsaps housing, the 2019 Novel Coronavirus ("COVID-19") and/or similar public health crisis may impact the student's housing experience as Office of Student Life continues to make public health-informed decisions. The below policies and guidelines are incorporated into the housing agreement and are applicable to all residential students. As always, we will endeavor to update the student with timely information about specific health and safety guidance important for our residential students.
 - ii. Health and Safety. We expect that all members of the Millsaps community—residents, staff and visitors—act in a manner that demonstrates respect and consideration for those around them, including respect and consideration for the health and safety of all community members. All residential students are prohibited from creating a health or safety hazard within Millsaps housing, and the College may request or require a resident to leave their assigned space, pursuant to the terms herein, if their continued presence in the

housing community poses a health or safety risk for community members. Residential students are required to comply with health and safety laws, orders, ordinances, regulations and health and safety guidance adopted by the College or Office of Student Life as it relates to public health crises, including COVID-19. This guidance will evolve as the public health crisis evolves and may include, but is not limited to, social distancing, limitations on mass gatherings, wearing a face covering, COVID-19 diagnostic and surveillance testing (including before or upon arrival to campus), contact tracing, disinfection protocols, limitations on guests into residential facilities, and quarantine/isolation requirements (including before or upon arrival to campus). Adherence to health and safety requirements applies to all residents, staff and visitors and extends to all aspects of residential life, including bedrooms, bathrooms, community kitchens, lounges, computer rooms, courtyards and other common spaces.

Not all residential rooms or halls are appropriate for self-quarantine or self-isolation, and in those situations where a student is recommended to self-quarantine or self-isolate, students may not be permitted to continue residing in their residential space and will be provided alternative housing arrangements as needed and as described herein. Removal from Millsaps housing to isolate or quarantine does not constitute a termination of a residential student's housing agreement.
- iv. De-Densifying Efforts. Residential students are required to comply with any de-densifying efforts

needed on campus due to COVID-19 or other public health emergencies, including, but not limited to, the relocation of all or some residential students. Relocation does not constitute a termination of a residential student's housing agreement. In the event of a relocation due to quarantine or de-densifying efforts, residential students shall first make best efforts to arrange alternative housing arrangements with their families or other suitable off-campus locations. If such arrangements are not possible, Millsaps may relocate all or some residential students to alternative Millsaps on-campus housing. In the event Millsaps must relocate students as part of a de-densifying strategy due to public health concerns for an extended period of time and alternative Millsaps on-campus housing is not available, Millsaps will arrange off-campus housing for impacted students as appropriate and based on information available at that time and in the College's sole discretion.
